

I am reiterating concern that Abu Anas al-Libi was abducted from Libya in violation of international law.

I would like to express concern about reports that he is being held in solitary confinement in conditions which breach international standards for humane treatment and are incompatible with the presumption of innocence in the case of untried prisoners, and which may negatively impact on his mental health and his ability to assist in his defence.

I am also calling for his conditions of pre-trial detention to be immediately improved so that they fully comply with international law and standards and that he receive all necessary medical care.

I lastly need to urge that conditions for all those held in MCC SHU fully conform to international standards.

Thank you very much for your attention.

Sincerely yours,
