

I am writing this to express my grave concern for Eduard Lykau, who was sentenced to death on 26 November.

I urge you to commute immediately the death sentence of Eduard Lykau and all other death sentences in Belarus.

At the same time, I call on you to establish an immediate moratorium on the use of the death penalty.

I also urge you to ensure that full current information about the use of the death penalty in Belarus is publicly available.

Thank you for your prompt attention to the above.

Sincerely yours,
