

Your Excellency;

I call on the Iranian authorities to release Nazanin Zaghari-Ratcliffe immediately and unconditionally, as she is a prisoner of conscience, held solely for her work in connection with peacefully exercising the right to freedom of expression and association.

I urge you to ensure that she is immediately granted access to specialized medical care outside prison.

I call on you pending her release, to allow her extended visits with her daughter in a suitable environment, which takes account of the best interests of the child in line with the provisions of the Convention on the Rights of the Child, which Iran has ratified.

I request that she be granted access to British consular assistance.

Yours respectfully,
