

I would like to urge the Minister of the Interior and relevant local authorities to immediately activate the Contingency Plan established under Law 1448 of 2011 in order to provide assistance to the Indigenous Yukpa People forced from their homes by armed attacks in the region.

I call the authorities to provide care and assistance, including their requested relocation within Colombia, in order to guarantee the life, integrity and continued existence of the Indigenous Yukpa People in Colombia.

And I urge you the immediate launch of the ethnic safeguard plan for the binational Indigenous Yukpa People and guarantees of their rights within Colombian territory.

Yours respectfully
